PROFILE

Infrastructure professional with experience in Windows Server, virtualization and cloud. AWS Certified Cloud Practitioner. Three years at Tata Consultancy Services, first as a Support Engineer in Microsoft's Storage and High Availability area and currently supporting PricewaterhouseCoopers. Prior background in software development, QA and architecture, a mix that brings a design mindset to technical problem solving. Career goal: to grow into systems architecture and cloud infrastructure roles.

PROFESSIONAL EXPERIENCE

Support Analyst — PwC Mexico

May 2026 – Present

Tata Consultancy Services · Montevideo, Uruguay (remote)

- Technical support for PricewaterhouseCoopers Mexico corporate users across laptops and mobile devices.
- Troubleshooting of VPN incidents (GlobalProtect), device enrollment in Company Portal and Microsoft Office errors.
- Root cause analysis and case documentation for escalation to higher support tiers.

L1 Technical Support — PwC United States

Nov 2024 – May 2026

Tata Consultancy Services · Montevideo, Uruguay (remote)

- First-line support in English for PwC US corporate users, covering laptops and mobile devices.
- Handling of VPN connectivity incidents, mobile device management (MDM), licensing and Microsoft 365 profiles.
- Translating user-reported symptoms into actionable technical diagnoses in a high-volume ticket environment.

Support Engineer — Storage & High Availability (Microsoft account)

Nov 2023 – Nov 2024

Tata Consultancy Services · Montevideo, Uruguay

- Technical support for Windows Server customers on high availability and storage scenarios.
- Failover cluster troubleshooting: node eviction, quorum loss, Cluster Shared Volume (CSV) failures and witness disk issues.
- Hyper-V incident resolution: failed live migrations, VM boot after failover and virtual network configuration.
- Analysis of cluster logs, system events and network traces to determine root cause on non-reproducible incidents.

Manual QA Tester (internship)

2022 · 3 months

Switch Software Solutions · Montevideo, Uruguay

- Final stage of the CES Software Tester Diploma.
- Test case design and execution on a web application and an Android app, managed through Jira.
- Defect reporting with reproduction steps and prioritization of test coverage.

EDUCATION

Software Tester Diploma

2021 – 2022

Centro de Ensayos de Software (CES) — Universidad de la República

Completed on scholarship. Test case design, defect reporting and quality management. Certificates issued by the School of Engineering's Continuing Education programme.

AWS re/Start — Cloud training programme

2022 – 2023

Fundación Forge with Amazon Web Services

Four months covering Linux, Python, networking, security, databases and AWS fundamentals, with hands-on labs. Includes the «Tu Futuro» professional skills course.

School of Architecture, Design and Urbanism

Feb 2023 – 2024

Universidad de la República

Completed through second year, with all first-year courses passed. Modelling and representation with AutoCAD, SketchUp and Twinmotion.

Jóvenes a Programar

2021

Ceibal, with CUTI and industry partners

Object-oriented programming, testing fundamentals and GeneXus development.

CERTIFICATIONS

- AWS Certified Cloud Practitioner — Amazon Web Services

TECHNICAL SKILLS

Cloud	AWS · Microsoft Azure
Infrastructure	Windows Server · Hyper-V · Failover Clustering · Storage Spaces Direct · Active Directory · iSCSI
Systems	Linux · Microsoft 365 · Intune / Company Portal · GlobalProtect VPN
Development	HTML5 · CSS3 · JavaScript · Python · GeneXus · Git
Quality	Manual testing · Test case design · Jira
Design	Figma · AutoCAD · SketchUp · Twinmotion

PROJECTS

High availability lab

Design and implementation of a Windows Server failover cluster: two Hyper-V nodes, Active Directory with a replicated domain controller, shared volumes on S2D and an Azure cloud witness.

Personal website

Portfolio built from scratch in HTML, CSS and JavaScript with no frameworks: modular architecture, custom design and deployment on GitHub Pages.

LANGUAGES

Spanish (native) · English (professional working proficiency; experience supporting US-based clients in English)
